FOOTBALL MUMS, continued

Name	Height (Ins.)	Date of Bloom	Price Each	3
ROYAL SUN. III. P. 24. New. Captures darting rays of Old Sol, radiates golden cheer in tissue-crisp incurves. Ideal stems, too, so it's an adventure in yellow	28	Oct. 12	.85	2.35
SUNSHAFT —Glorious deep golden yellow incurve after bronze in buds mellow. A giant of deep formation	36	Oct. 12	.85	2.35
SUPERLATIVE. III. P. 24. Still tops all incurved whites, a queen "in raiment white and clean". Impeccably pure, matchlessly formed, hard to visualize anything more lovely	28	Oct. 15	.85	2.35

Name	Height (Ins.)	Date of Bloom	Price Each	3
WESTFIELD BRONZE. III. P. 24. Once again this magnetic orange-bronze incurve, so deeply layered, is available. Long time favorite	32	Oct. 12	.85	2.35
XENIA FIELD. III. P. 24. New. Well-groomed, as befits a mum named for a famed English garden writer. Vividly deep reflexing rose pink petals, but silvery center is like artfully contrived coiffure. Beautiful, very navel, as fashionable as tomorrow	36	Oct. 20	.85	2.35

NOTE: To join the National Chrysanthemum Society send check for \$4.00 for year's dues, to Miss Dorothy Tuthill, Sec'y, 345 Milton Rd., Rye, N. Y.

BRISTOL MUMS - *Autumn's Warmest Breath!*

Mums are Easy to Grow, A Few Simple Do's and Don'ts on Mum Culture

DO

1. Give all possible sunlight.
2. Have soil analyzed if uncertain. Your state Experiment Station does this free of charge.
3. Have some humus in soil—peat moss, manure, leaf mold, etc.
4. Pinch! Tip shoots lightly at 6 in., then again each resulting 6 in. Stop all pinching after July 20 to 30, to let buds form. Stockier, more floriferous clumps result.
5. Use 5-10-10, Mum-Gro, etc., to get new roots started first.

DON'T

1. Plant too early. Wait for frosts to cease. June is ideal in New England.
2. Expect plants to grow instantly. Allow a couple of weeks.
3. Crowd Mums too much. 18 to 24-in. spacing is ideal.
4. Let old plants go undivided. Most varieties should be split each spring.
5. Leave early summer buds on. Keep them removed till new shoots appear.

FINALLY, JUST A FEW BRIEF NOTES . . .

1. Bristol Mums are strong potted plants, not just rooted cuttings.
2. We recommend spring planting only, for northern areas, at least through mails.
3. "3 for \$2.75," for instance, means 3 of that one variety, not 2 of one, and 1 of some other.
4. Full cultural instructions accompany each shipment. Don't be frightened. Mums are easy to grow and enjoy!
5. Varietal colors, performances, dates of bloom, etc., may vary in different localities and soils. We judge mainly on results at Bristol.
6. Thanks for your continued patronage. We hope to remain friends for years to come.

PLANTS WE SHIP, AND WHEN

Mums will be from 2 1/4-inch pots, ready to grow for you.

We ship at proper time for your area, unless you dictate otherwise. You can rely on us to decide properly.

The Modern MUM Fertilizer MUM-GRO! Now 50% Organic!

A new formula to give longer, more effective season. Basically 5-10-10, but 50% is organic (sludge, tankage, urea). Hence gives 3 potent applications in one! 3 generous feeding periods. Chemical content available early—then organic in a few weeks—finally urea. Plants have steady feeding all summer! Roots start before tops for solid base.

Can broadcast 3 lbs. per 100 sq. ft. Or, give each plant a heaping tablespoonful at planting time for economy's sake. Don't be impatient and feed again—takes time to dissolve! Half tablespoonful repeat dose O.K. late August if desired. Good for whole garden. Try to store in dry, cool space.
